- The Treatment is printed on 19 Pages in Adobe PDF and watermarked.

- If the Recipient likes the story and intends to purchase it, he may send to the Releasor a written Negotiable Non-binding Offer to Purchase – Non-Obligating him to purchase but informing in writing – of his intention to buy the Full Script – indicating his proposed price, and or procedures, conditions, terms, rights, loyalties, credits, etc.

- If the Two Parties agree on an advance payment basis, the Writer will send to the Recipient a PDF Watermarked Version of the Full Script as well as an Invoice for his / her payment to receive Film Production Rights of this Project.

- If the Recipient is satisfied with the Full PDF Script and if they agreed on a Payment, he / she will make the necessary payment to the Releasor based on the terms and conditions agreed upon between the Two Parties. If he / she is not satisfied, he / she will advise his suggestions until the Writer send him / her a Script that meets his / her satisfaction.

- If they agree on a Co-Production basis, they will sign the relevant Contract accordingly.

- After signing the above Contract or upon receiving the above payment, depending on the agreement between the Two Parties; Deo Clarisse Bashala, at DeoClarisse Pty Ltd will send to Andreas Graf at Epic Lab within the next Twelve Working Days:

    1. The Full Editable 102+ Pages Script of the "Film: Mukeniya" in MS Word Version and without watermarks.

    2. The 19 Pages Treatment Document in MS Word version and without Watermarks

    3. An attached signed Contract giving to Andreas Graf the Rights of Production of Mukeniya as agreed between the two Parties and granting The Recipient permission to modify the Story should he / she wish so within the boundaries of their agreement.

    4. If applicable, a Receipt confirming his / her payment to DeoClarisse Pty Ltd.

- The Full Script elaborates scenes and dialogs in detail; specifies interior / exterior, actions, narrations, conversations, sub-texts, locations, timings, emotions, actions, objectives, and obstacles written in "courier font size 12".

  Unlike a Screenplay, the Script does not necessarily address Film technicalities, i.e., it does not specify camera angles, nor lights, or music styles, neither "fade ins" nor "fade outs", etc.

- As per the attached Short Preview, it is a detailed story elaborated on A4 Size Pages.

- The Script Document also contains an Index, a Synopsis, Loglines, Chapters breakdown and Characters' descriptions.

- The Full Script comprises more than 102 Pages, estimated to produce a Feature Film of approximately an Hour and 30 Minutes long or can be re-edited into a 2 Parts Movie or 4 Episodes Serie, or produced in whichever way, depending on the Producer's decision.

- If the Recipient purchases this Project, he / she will be entitled full Production Rights of the Film and will be granted permission to modify the Story should he / she wish to do so within the boundaries of the signed Contract by both Parties.
